

Transaction Processing & Accounting Support | Financial Statements & Disclosures / SEC Reporting

Short Summary

This quasi-government agency engaged SolomonEdwards to evaluate the policy and process associated with asset impairment triggers as they sought to rationalize offices through the US. SolomonEdwards led facilitated sessions across multiple functional groups, developed process flows, streamlined controls, and prepared the Asset Impairment Policy for the entity.

In addition, SolomonEdwards has supported the Corporate Accounting department for approximately 2 years in a variety of capacities including, but not limited to, all financial reporting matters (due to specific government regulations, the Client is required to report as if it's a public company), internal controls, and revenue recognition.
