Fresh-Start Overview:

Emergence from bankruptcy is a complex process full of unique events. These “one-time” events place significant burden on management and involve numerous parties and workstreams that must be synchronized in parallel for the successful emergence. Fresh-Start is codified in Accounting Standards Codification 852: *Reorganizations* (ASC 852) as the reporting requirements for those entities that are emerging from Chapter 11 Reorganization. This type of accounting requires the implementation of the Plan of Reorganization and the application of fair value concepts in determining the organization value to establish the new basis of financial reporting for the emerging company.

Two criteria must be met, and if met, the company must adopt ASC 852 reporting upon emergence:

-  *Reorganization value of the assets immediately before the date of confirmation is less than the post-petition liabilities and allowed claims.*
-  *Control changes (i.e., the pre-petition shareholders lose control of the emerging entity by receiving less than 50% of the voting shares of the emerging entity).*

The Chapter 11 process involves many steps, and Fresh-Start reporting represents preparation for emergence:

Accounting & Reporting

- Establish applicability of Fresh-Start
- Facilitate auditor timeline and reporting requirements
- Establish process surrounding Liabilities Subject to Compromise

Bankruptcy

- Review Plan of Reorganization and Disclosure Statement for Fresh-Start impacts
- Establish recovery reporting
- Resolve impacts of unique bankruptcy events
